My Portfolio: <https://priyanka23ait.github.io/Portfolio/>

SYNOPSIS:

- 5+ years of experience in **Software Development Lifecycle, Agile Methodology**.
- Experience in **Object-oriented programming (OOPS)** using C#.
- Experience in ASP.Net Core, Web API, MVC, ASP.Net, SQL Server, Entity Framework, LINQ, ADO.Net.
- Worked on **Microservice** Architecture.
- Experience in **Client Side Programming** using JavaScript, jQuery, Ajax and React.
- Experience in **Cloud Infrastructure** like Azure, AWS.
- Well versed in Data Structures & Algorithm.
- Familiar with various design and architectural patterns.
- Good understandings of SQL query optimizations, SQL Statements, Stored Procedures, Functions, and Triggers etc.
- Worked in diverse domains such as Finance, E-Commerce, Healthcare and Retail etc.
- Experience in Tools like Visual Studio, Visual Code, SSMS, TFS, GIT, Rally, JIRA, SQL Enlight, Solr etc.

EXPERIENCE:

Ameriprise Financial | Senior Developer

July, 2021 – Present

Project: Trade Correction

Team Size: 4 Developers

Tech Stack: ASP.Net Core, C#, Web API, ReactJS, Entity Framework, SQL, AWS.

Contribution:

- Created a Trade Correction Portal to handle scenario-specific trade correction and related functionalities for the users.
- Made a background service to perform long-running operations.
- Exposure on various AWS services like IAM, RDS, Glue, ML transform, Step Function, SNS, Secret Manager, EC2, EMR, Athena and Cloud Watch.

BOLD Technology | Software Developer

August, 2019 – June, 2021

Project: Ecommerce Service

Team size: 11 (7 Developer & 4 Quality Analyst)

Tech Stack: ASP.Net Core, C#, Web API, Microservice, Azure, Design Pattern, Entity Framework, Linq, SQL, Apache Solr

Contribution:

- Integrated *Trustly* Payment Gateway to perform transaction & refund.
- Created a web job to send email notification to the users to inform the subscription status.
- Created a utility that read the data from blob containers and parse it.
- Worked on Apache Solr and integrate it through the web job.
- Created and setup CI/CD process to deploy Azure services in an automated manner using Code Commit (Git), Code Pipeline, Cloud Formation etc.

Tata Consultancy Services Ltd. | System Engineer

April, 2016 – August, 2019

Project: Patient Profile Application

April, 2017 – August, 2019

Team size: 12 (7 Developer & 5 Quality Analyst)

Tech Stack: C#, MVC, SQL, Entity Framework, Linq, jQuery, Ajax, HTML, CSS.

Contribution:

- Understanding the requirements of the users and implemented the complex user stories.
- Wrote unit test cases, debug the code and fix any known issues.
- Worked on complex stored procedures and send the reports to the customer through SSRS via scheduler.

Project: Approval System

April, 2016 – March, 2017

Client: PepsiCo which is one of the consumer goods industries. They make and sell beverages, snacks and food products across globe.

Team Size: 2

Tech Stack: ASP.NET, SQL, ADO.Net.

Contribution:

- Monitoring and solving performance issues.
- Analyzed the bugs and fixed the issue.

QUALIFICATION:

Qualification	University/Board	Percentage
B.Tech	IP University	74.8
XII	CBSE	80.2
X	CBSE	78.2

KEY RESULT AREAS:

- Requirements validation and feasibility analysis.
- Developing of New Functionalities and Enhancements.
- Ensure code quality is good, scalable and reusable.
- Proactively resolved new issues without injecting new bugs.
- Involved in Unit Testing, Documentation and support.
- Analyzing the Feature work and break the feature in small chunks in form of User Stories.
- Felicitating Grooming Sessions and PI Planning.
- Ability to meet tight Deadlines and Work under Pressure.
- Capability to learn new technologies quickly and adapt to new environment promptly.

- Assisting with Internal and External Communication and Effective Information.
- Communicating with internal/external clients to determine specific requirements and expectations; managing client expectations as an indicator of quality.
- Following the project life cycle methodology like Agile and Waterfall.
